

SQLBase 8.5 Early Bird Upgrade Option

New in SQLBase 8.5

- **Performance, performance, performance and ultimate speed**
 - Overall performance increase 10% compared to SQLBase 8.1 and 40% increase compared to SQLBase 7.5 and 6.x
 - Sorting in average 25!! times faster
 - Queries and insert/update transaction both benefit from performance increase
 - Timeout's and Deadlock's reduced
 - More Cache can be assigned to database
- **Flexibility**
 - Use SQL99 as common SQL standard in applications
- **Cut your application support time**
 - ISV's can run multiple SQLBase 8.5 installations on one machine
- **Painless upgrading**
 - Automatic database conversion to latest format
- **Strategic platform independence**
 - SQLBase will be available on Linux in 2004
